A circular signed by Messra, Jurado and Co. of Manila, having reference to their litigation with the Hongkong and Shanghai Banking Corporation, has been spread broadcast by the firm in question. This letter is one of the most imedent and mendacious statements that we have teen for some time. As many of our readers know Jurado and Co. claim a large suru from the bank, and some days ago a contemporary had the following announcement.

"The Spanish authorities have removed the embargo which they placed on the bank's property, the bank furnishing a guarantee that the assets will be at hand in the event of the case being decided in Jurado's favour." Mosers Jurado and Co. say that this statement s " absolutely false," whereas as a matter of fact t is true. The whole circular is a tissue of misstatements on a par with other circulars emanating from the same firm, whose sinister object in thus seting is apparent. The cloven book in fact, is disclosed too prominently, and destroys what little effect the rigmarcle might otherwise

established in Manils. Further on Messre, Jurado and Co. say :-"It will prove both the honosty and sincerity of the directors by endeavouring to ascertain by whom and for what purpose the false statements lately published by the Press were invent d and circulated, and if there is any connection between their publication and the heavy fluctuation of the Hongkong and Shanghai Banking Corporation's shares." -The fluctuation in the price of the bank's shares has no connection whatever with the dispute in tually the losers. FOOCHOW NOTES

Some seventeen rufflans, who have been in prison for years for murder, stood their final trial at the court of the Provincial Judge last week, and are now awaiting the Emperor's sauction for their execution. There are among at them two females, who murdered their husbands. The new Min Magistrate, immediately after taking over the seals of office, summoned all the managers of the native banks and money changers to his presence, and informed them that he intends to vigorously carry through the standing law established by his predecessor re the use of spurious cash, and that during his term of office he will do all in his power to extinguish the malpractice, in toto. We understand that upon the expiration of the term of his office, the Tartar General requested from the Throne permission to proceed to Peking, and present himself to the Emperor secording to " olo custom." Instead, however, of obtaining the desired permission, orders have

just come for him to remain at his post for another term at this port; this means six years' further service. As we stated last week "the finances of all piece goods dealers are reported to be in a most precarious state." The statement is beyond doubt correct, as another failure of a silk and piecegoods firm of very long standing has occurred in the city, with liabilities reported to reach nearly

\$200,000? The business of such dealers is generally in connection with one mother, and so serious a failure must inevitably bring several others in its train. - Echo, 17th May.
